## Welcome to Channelglaze Limited

- the friendly, family-run boat glazier

Established in 1979, we are the longest running window manufacturers in the industry and have an excellent reputation. The quality of our products and the reliability of our service are unrivalled within the canal boat industry, and we pride ourselves on our ability to satisfy every query. If you are looking for a company that believes in customer service and satisfaction with your best interests at heart, then come to our family business and benefit from our vast amount of experience in fitting and replacing boat windows for the personal owner.

Double glazing? Our purpose-built double-glazed windows are widely admired, particularly by those who live aboard the boats on which they're fitted. They dramatically reduce (and often eliminate) condensation, have a very significant effect on noise levels, and are fantastic at retaining heat and keeping out cold. By utilising the most solid frame in the industry, we ensure a notably robust and strong window.

The place to come if you're looking to replace, repair or refit your canal boat windows - or even if you just need some advice.

# Decisions, decisions, decisions...

Channelglaze Limited designs, manufactures and supplies a wide range of attractive and competitively priced aluminium marine windows and other such window accessories. Below are a series of shapes, openings, finishes and frames that are available along with their respective notes and codes for quoting purposes.

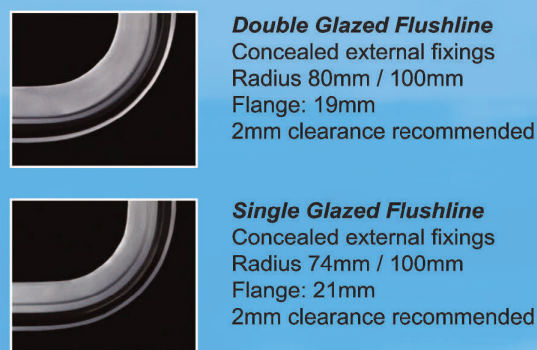

## Shape Options

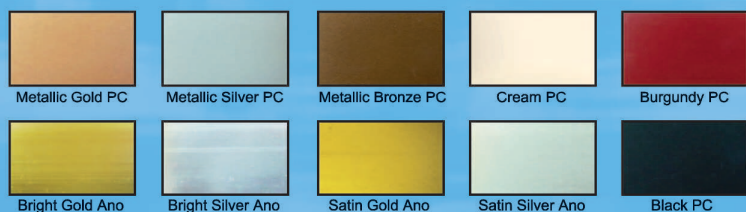

## Opening Options

## Frame Options

## Finish Options

Note: Anodising is a variable finish and whilst we will try to ensure consistency across our parts with minimal variation we cannot guarantee this especially where strict deadlines are in place. We would therefore recommend our powder coated range for customers looking for a consistent finish across all parts.

# Narrowboat Windows

## Top Hopper

The most popular of our options, the Top Hopper window is also our standard for the range. As the most common type of window opening used on canal boats, this window is versatile and broadly applicable. Here at Channelglaze, we produce this type of window using extremely robust, purpose-built frames, making for a superb and durable window.

The top hopper is approximately seven inches high and sits on a horizontal centre bar. The hopper rests in the open position on a pair of matching aluminium angles which can be removed and stored for extra ventilation or for reglaze.

Across the opening hopper part of the window are our high quality, durable and easy to operate sash locks with their keeps held firmly onto the main frame of the window. Below this is the fixed pane, positioned safely within the main frame of the window.

### Double Glazed Flushline / Standard Shape

18"	36"	48"	
£276	£309	£332	Powder Coated
£294	£325	£348	Silver Anodised
£319	£363	£394	Gold Anodised

### Single Glazed Flushline / Standard Shape

18"	36"	48"	
£174	£196	£211	Powder Coated
£185	£206	£220	Silver Anodised
£201	£232	£251	Gold Anodised

## Full Hopper

An elegant alternative to the Top Hopper and our finest opening option to date. Only available in our double glazed range, which constitutes beyond a doubt the highest quality in the industry, this opening is fast becoming a very popular option amongst our customers.

In the Full Hopper the width and height of the entire window are utilised for the opening, meaning that no obstructive bars or fixings are in view of the window. This also means that there is more available light entering into the boat.

Removing the whole hopper allows you to cruise with the entire window unit removed for maximum ventilation on those hot summer days and also makes for easier reglaze for those inconvenient collisions.

Where security is a must we offer the option to upgrade these windows with the use of a high quality push key lock.

### Double Glazed Flushline / Standard Shape

18"	36"	48"	
£268	£299	£324	Powder Coated
£283	£313	£336	Silver Anodised
£306	£346	£377	Gold Anodised

### Upgrades for Full Hopper

Push Button Lock (x1) = £28

Night Stay (x1) = £8.50

All prices are subject to the standard rate of VAT. All prices include 4mm toughened clear glazing as standard. Prices for alternative shapes as illustrated on page 3 of this brochure are available on request. Textured, tinted and specialised glazing options are also available. All of our windows are made to measure, these are common sizes for estimating purposes, please complete the Order Questionnaire at the back of this document and return to us for accurate pricing.

# Wide Beam & Dutch Barge Windows

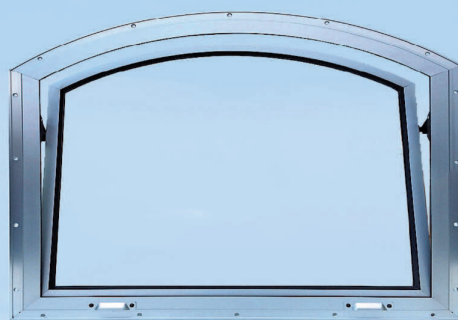

## Arched Bottom Hopper

A design we really pride ourselves on, Channelglaze Arched Top windows are the most elegant and desirable windows for use on wide beams and Dutch barges.

This design became popular with the trend for Dutch barge conversions. Many such boats are a source of great pride to the owners, and to this end we offer the highest quality Arched Top windows available.

This Bottom Hopper has a fixed pane located at the top of the window, whilst the opening hopper unit is located in the bottom section. The hopper unit can be removed and stored for extra ventilation or for reglaze and tilts inward on release to rests on a pair of roller arms.

We can manufacture these to template or can offer to supply a template of our standard arch for aperture cutting.

## Arched Full Hopper

Our finest opening option to date in the most elegant shape option. Only available in our double glazed range, which constitutes beyond a doubt the highest quality in the industry, this opening is fast becoming a very popular option for wide beams and Dutch barges.

In the Full Hopper the width and height of the entire window are utilised for the opening, meaning that no obstructive bars or fixings are in view of the window. This also means that there is more available light entering into the boat.

Whole hopper removal allows you to cruise with the entire window unit removed for maximum ventilation on those hot summer days and also makes for easier reglaze for those inconvenient collisions.

Where security is a must we offer the option to upgrade these windows with the use of a high quality push key lock.

### Double Glazed Flushline / Arched Top

# Portholes

## Top Hopper Porthole

With a hopper pane in the top of the porthole, this design is particularly applicable to bathrooms and engine rooms. The window is available in obscure glass for privacy and is often manufactured in diameters ranging in integers of an inch from 12" to 18", although other sizes are available.

It has a horizontal centre bar for the opening pane to sit on and is secured in the closed position with our robust sash lock and keep.

### Double Glazed Flushline / Top Hopper Porthole

14"	16"	18"	
£228	£231	£234	Powder Coated
£242	£245	£248	Silver Anodised
£252	£256	£260	Gold Anodised

### Single Glazed Flushline / Top Hopper Porthole

14"	16"	18"	
£159	£161	£164	Powder Coated
£170	£173	£175	Silver Anodised
£179	£182	£186	Gold Anodised

## Fixed Pane Porthole

The Fixed Pane Porthole is a simple fixed window that merely provides light and helps to retain heat. Due to the nature of this window, there is nothing obstructing its view, as opposed to the centre bar visible on the Top Hopper. These are often manufactured in diameters ranging in integers of an inch from 12" to 18".

### Double Glazed Flushline / Fixed Pane Porthole

14"	16"	18"	
£178	£180	£183	Powder Coated
£192	£194	£196	Silver Anodised
£200	£203	£206	Gold Anodised

### Single Glazed Flushline / Fixed Pane Porthole

14"	16"	18"	
£122	£125	£127	Powder Coated
£134	£136	£138	Silver Anodised
£141	£144	£147	Gold Anodised

## Full Hopper Porthole

Our finest porthole to date. In the Full Hopper Porthole, the entire diameter is utilised for the opening, meaning that no obstructive bars or fixings are in view. This means there is more available light entering the boat. Toward the bottom of the hopper pane an angle plate helps level the porthole and two robust sash locks and keeps secure the window in the closed position. Note: only available in our double glazed and in sizes 16" & 18".

### Double Glazed Flushline / Full Hopper Porthole

16"	18"	
£256	£261	Powder Coated
£266	£270	Silver Anodised
£286	£292	Gold Anodised

Other window designs and accessories are available such as deck hatches, wooden internal trims, aluminium porthole trims and replacement parts are available. Please contact us for further information and pricing details.

All prices are subject to the standard rate of VAT. All prices include 4mm toughened clear glazing as standard. Prices for alternative shapes as illustrated on page 3 of this brochure are available on request. Textured, tinted and specialised glazing options are also available. All of our windows are made to measure, these are common sizes for estimating purposes, please complete the Order Questionnaire at the back of this document and return to us for accurate pricing.
